

Service offering

FOR SWISS INDEPENDENT WEALTH MANAGERS

Our core purpose

To take a stand for all investors, to treat them fairly and to give them the best chance for investment success

Vanguard was founded in the United States in 1975 on a simple but revolutionary idea: that an investment company should manage its funds solely in the interests of its clients. Instead of paying dividends to shareholders, our unique US ownership structure means we redirect our profits to investors in the form of lower fees. It's what we stand for: value to investors.

To investors we offer a range of plain, cost efficient and long-term oriented active and passive solutions, across traditional and sustainable investments. For independent wealth managers we offer a broad range of resources to help you define the appropriate asset allocation and portfolio construction to best achieve the investment goals of your clients.

Investment research & education

- Macroeconomic research
- Model portfolios
